NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting and Financial Reporting Policies

Basis of Preparation

The financial statements have been prepared on a historical cost basis, except for the quoted equity securities included under available-for-sale (AFS) financial assets, which are carried at fair value. The financial statements are presented in Philippine peso, which is the Company's functional and presentation currency. All values are rounded off to nearest Peso Unit, except when otherwise indicated.

Statement of Compliance

The financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Changes in Accounting Policies

The Company applied, for the first time, certain standards and amendments that require restatement of previous financial statements. These include PFRS 10, "Consolidated Financial Statements", PFRS 11, "Joint Arrangements", PAS 19, "Employee Benefits (Revised 2011)", PFRS 13, "Fair Value Measurement" and amendments to PAS 1, "Presentation of Financial Statements". In addition, the application of PFRS 12, "Disclosure of Interests in Other Entities", resulted in additional disclosures in the financial statements.

Several other amendments apply for the first time in 2013. However, they do not impact the annual financial statements of the Company.

The nature and the impact of each new standard and amendment are described below:

- Philippine Accounting Standards (PAS) 1, "Financial Statement Presentation - Presentation of Items of Other Comprehensive Income (Amendments)" – The amendments to PAS 1 introduced a grouping of items presented in other comprehensive income. Items that will be reclassified (or 'recycled') to profit or loss at a future point in time (for example, upon derecognition or settlement) will be presented separately from items that will never be recycled. The amendments affect presentation only and have no impact on the Company's financial position or performance.
- PAS 19 (Revised), "Employee Benefits" – Amendments range from fundamental changes such as removing the corridor mechanism and the concept of expected returns on plan assets to simple clarifications and rewording. The revised standard also requires new disclosures such as, among others, a sensitivity analysis for each significant actuarial assumption, information on asset-liability matching strategies, duration of the defined benefit obligation, and disaggregation of plan assets by nature and risk. The application of these amendments did not have an impact on the Company's financial position or performance.
- PAS 27 (as revised in 2011), "Separate Financial Statements" – As a consequence of the issuance of the new PFRS 10, "Consolidated Financial Statements" and PFRS 12, "Disclosure of Interests in Other Entities", what remains of PAS 27 is limited to accounting for subsidiaries, jointly controlled entities, and associates in the separate financial statements. The adoption of the amended PAS 27 did not have an impact on the Company's financial position and performance.
