Materiality Process

Explain how you applied the materiality principle (or the materiality process) in identifying your material topics.

The Company used Selected GRI Sustainability Reporting Standards (Core Option) in accordance with the GRI 102: General Disclosures, to report on contextual information about itself and its impacts on the economy, the environment and society.

The Company's economic and environmental sustainability principles are exercised through its affiliate, Metro Rail Transit Corporation (MRTC). MRTC is the owner of the Metro Rail Transit (MRT) 3 System along the 16.9 kilometer stretch of Epifanio de los Santos Avenue (EDSA). The MRT 3 System is leased to the Department of Transportation and Communication, which operates and maintains the system for 25 years commencing 2000. The wholly electrically powered Metro Rail Transit Line 3 (MRT-3) average daily ridership increased by 100% from 127,276 riders in 2021 to 273,141 in 2022.

The Company has a 28.47% equity interest in Monumento Rail Transit Corporation which, allows participation in the MRT 3 (Phase 2) system extension, the airport link from the Taft Avenue Station up to the airport and the envisioned rail extension from Ayala Station to Buendia Station via a loop through Ayala Avenue and Gil-Puyat Avenue (the Makati loop)

The Company acquired 15.79% equity interest in MRT Development Corporation (MRTDC) on December 2018. MRTDC has exclusive rights to all commercial developments along the MRT-3 System, including in the 13 Stations and air space above the 13 Stations,

which include all commercial leasing rights in the 13 Stations, advertising rights, development of the air space above all the 13 stations, and all other commercial activities within the entire MRT-3 System.

The Parent Company plans to continue its strategy of maintaining itself as a holding corporation with key investment in the form of equity interest in MRTH I and MRTH II. The combined investment in these two holding companies represents approximately 29% interest in the MRT 3 System along EDSA. The Phase 1 of the MRT Project (LRTS Phase 1) began full operation on July 15, 2000, which involved 13 stations spanning the North Triangle to Taft Avenue. The operation for the next twelve (12) months was strictly confined to that of an investee corporation.

The Parent Company incorporated MGHC Royal Holdings Corporation (MGHC Royal) on May 19, 2017. MGHC Royal intends to engaged in the business of investing, purchasing, or otherwise acquiring, and owning, holding, using, selling, assigning, transferring, pledging, exchanging, or otherwise disposing of real and personal property of every kind and description, including shares of stocks, bonds, debentures, notes, evidences of indebtedness, and other securities of obligation of any other corporation or corporations associations or associations, domestic or foreign, for whatever lawful purpose or purposes.

On August 25, 2020, the Parent Company incorporated Metro Renewable Transport Solutions, Inc. (MRTSI). MRTSI intends to engaged in infrastructure development or providing services in relation with and in connection thereto, including but not limited to the construction of whatever kind and nature and for whatever purpose, buildings, roads, bridges, railways, ports, highways and other passages and facilities for transportation and communication.

MGHC Royal and MRTSI were not in commercial operation as at December 31, 2022.

MATERIALITY

The key findings of the materiality analysis are as follows:

The Company and its subsidiaries do not engage in business operations that are subject to regulations which require compliance with environmental laws.

The Company has ten (10) employees as of December 31, 2022.

Its subsidiaries, MGHC Royal and Metro Rail Transport Inc. are both not yet in commercial operation and have no employees as of December 31, 2022. The management of the two companies is currently being undertaken by the executive officers of MGHC, the Parent Company.

The Company does not have plans for any product research and development within the next 12 months. There are no expected purchases or sale of plant and significant equipment within the same period as the Company is not engaged in any manufacturing business.

The trading of the Company's shares of stock at the PSE has been voluntarily suspended since March 20, 2007 to allow the Company to re-align its business and explore new strategic directions.

The Company plans to expand its primary purpose to include investments in businesses engaged in solar, wind and other renewable energy generation facilities.

The Parent Company is expected to receive its 28.47% share of the 5% the lease rental income from Trinoma Mall, (the "Depot Royalty Income") as a result of the redemption of its redeemable preferred shares in Monumento Rail. This revenue will be used to fund its operating expenses and to partially pay its debts to FEMI.

The Parent Company foresees that material funding may be required within the next twelve (12) months, in anticipation of the finalization and completion of the transactions relating to the acquisition by the Parent Company of the equity interest of FEMI in Metro Solar. Metro Solar's main project is the development of the 65-megawatt solar farm project in Pililia, Rizal, the construction of which is expected to commence within the year 2022. The Parent Company plans to raise the needed funds to finance this project through private placement and the eventual resumption of trading of its shares at the PSE.

The revised strategy will deliver the reference values for sustainability related action beyond 2022.

MATERIALITY COMPLETENESS

The report takes into account all significant impacts of MGHC along its value chain. The reporting processes ensure that the data collected includes the results from all entities with significant impacts regarding material topics.

STAKEHOLDERS INCLUSIVENESS is ensured by considering feedback from stakeholder engagement.

The Company continues, through its holdings in Monumento Rail, to actively pursue its participation in the train system extensions.

Relationship with Community

Company recognizes and places importance on the interdependence between business and society, and promotes a mutually beneficial relationship that allows the company to grow its business, while contributing to the advancement of the society where it operates.

Significant Impacts on Local Communities

Metro Global Holdings (MGHC)'s 2022 Outreach Program

There are two major facets or components of this program that took place primarily during the Holiday season towards the end of the year 2022.

Food Distribution:

The food distribution component involves the provision of nutritious meals to low-income families in impoverished communities primarily in Metro Manila, the seat of the company's operations. Food packages that consist of rice, canned goods, and other essential household items.

Toy and Gift-giving:

Here, specifically, Global Holdings Corporation collects donations from employees, and corporate partners to provide toys, school supplies, and other gifts for children living in earmarked communities of such need. Moreover, the program also organizes activities, such as arts and crafts, storytelling, and other interactive learning opportunities alongside the gift-giving event.

Geographically, MGHC has applied these initiatives not just within its immediate communities but beyond and even on a nationwide basis.
